

PHASE 6

CAPSTONE PROJECT

mAADHAR APPLICATION

OUTPUT

HOME PAGE

REGISTER PAGE

The screenshot shows the 'REGISTER PAGE' of the mAADHAR APPLICATION. The page has a green background with the 'AADHAAR' logo and the text 'AADHAR CARD APPLICATION' at the top. Below the logo, the text 'REGISTRATION PAGE' is displayed. The registration form consists of several input fields with labels: 'Name' (with the value 'viny'), 'Date Of Birth' (with the value '28-2-2000'), 'Email' (with the value 'vin@gmail.com'), 'Address' (with the value 'No.7,jayanagar,Chennai'), 'Mobile No:' (with the value '8967856789'), and 'Gender' (with the value 'Female'). A 'Register' button is located at the bottom of the form.

ADMIN TEST

USER TEST

The screenshot shows the Spring Tool Suite 4 IDE. The Package Explorer on the left displays the project structure, including the `src/test/java/com/example/AadharUserTest.java` file. The central editor shows the test code for `AadharUserTest`, which includes a `Chrome Browser is Opened!!` print statement and a `UserCheck` method. The bottom console window shows the test results for the `AadharUserTest` class, indicating that the test passed successfully.

```
16 System.out.println("Chrome Browser is Opened!!");
17
18 }
19
20
21 @Test
22 Run | Debug
23 public void UserCheck() {
24     driver.get("http://localhost:4200/home");
25     try {
26         Thread.sleep(3000);
27     } catch (InterruptedException e) {
28         e.printStackTrace();
29     }
30     driver.findElement(By.xpath("//a[@routerlink='userlogin']")).click();
31     try {
32         Thread.sleep(3000);
33     } catch (InterruptedException e) {
34         e.printStackTrace();
35     }
36     driver.get("http://localhost:4200/userlogin");
37     try {
38         Thread.sleep(3000);
39     } catch (InterruptedException e) {
40         e.printStackTrace();
41     }
42 }
```

REGISTER TEST

The screenshot shows the Spring Tool Suite 4 IDE. The Package Explorer on the left displays the project structure, including the `src/test/java/com/example/AadharRegisterTest.java` file. The central editor shows the test code for `AadharRegisterTest`, which includes a `TestRegister` method. The bottom console window shows the test results for the `AadharRegisterTest` class, indicating that the test passed successfully.

```
18 }
19
20 @Test
21 Run | Debug
22 public void TestRegister() {
23     driver.get("http://localhost:4200/home");
24     try {
25         Thread.sleep(3000);
26     } catch (InterruptedException e) {
27         e.printStackTrace();
28     }
29     driver.findElement(By.xpath("//a[@routerlink='register']")).click();
30     //driver.get("http://localhost:4200/register");
31     try {
32         Thread.sleep(3000);
33     } catch (InterruptedException e) {
34         e.printStackTrace();
35     }
36     driver.findElement(By.id("name")).sendKeys("suve");
37     driver.findElement(By.id("dob")).sendKeys("2000-3-30");
38     driver.findElement(By.id("emailid")).sendKeys("suve@gmail.com");
39     driver.findElement(By.id("address")).sendKeys("Radha nagar, Chennai");
40     driver.findElement(By.id("mobilenr")).sendKeys("9675678909");
41     driver.findElement(By.id("gender")).sendKeys("female");
42 }
```
